Status: Small Business / LLC

Location: United States Based

COMPANY OVERVIEW

Aurum Equity LLC provides mission-critical technology consulting and systems support specializing in Data Sovereignty and the secure modernization of federal legacy environments. We focus on high-integrity systems integration and PII/PHI risk mitigation for agencies operating in hyper-sensitive regulatory landscapes.

CORE COMPETENCIES

Secure Systems Integration: Engineering NIST-compliant bridges between disparate platforms so that data remains encrypted during inter-operability.

PII/PHI Data Integrity: Transitioning legacy databases to modernized architectures so that sensitive citizen information is protected against evolving threats.

Cloud Infrastructure Support: Deploying and managing secure cloud environments so that agencies achieve scalable operational continuity.

Application Hardening: Optimizing software performance and security protocols so that mission-critical workflows are shielded from disruption.

Technical Implementation: Providing structured project coordination so that modernization efforts meet strict federal milestones.

DIFFERENTIATORS

Zero-Disruption Legacy Transitions: Specialist expertise in "hot-swapping" aging infrastructure with zero downtime for essential services.

100% U.S.-Based Workforce: All support and development are handled by domestic experts, eliminating off-shore data residency risks.

Audit-Ready Delivery: Structured delivery model aligned directly to mission requirements for immediate compliance verification.

Rapid Response Technical Leadership: Direct involvement from senior leadership ensures immediate pivots to emerging security patches.

PAST PERFORMANCE

Commercial Health Systems Support: Modernized application architecture and data handling, resulting in enhanced performance and stability for PHI-sensitive workflows.

Private Sector Financial Integration: Executed system updates and API integrations that minimized workflow disruption while hardening PII data silos.
