

Aurum Equity LLC

Technology Consulting and Systems Support

UEI H2PBRHL3GT65 | NAICS 541511, 541512, 541519 | CAGE 18U14

Women-Owned Small Business (WOSB) — certification in process

Aurum Equity LLC provides technology consulting and systems support specializing in systems integration, application support, and modernization for government and small business environments, with compliance-focused records management, document lifecycle services, and AI-driven document intelligence for audit-ready compliance workflows.

CORE COMPETENCIES

- Application development and system enhancement
- Systems integration and interoperability
- IT modernization and legacy transition
- Cloud environment and infrastructure support
- Technical implementation and project coordination

SERVICE CAPABILITIES — RECORDS MANAGEMENT

- Compliance-based records retention scheduling (NARA, FAR 4.703, DFARS)
- Controlled document lifecycle management and disposition
- Secure destruction and certificate-of-destruction documentation
- Federal records classification and access control support
- Audit-ready recordkeeping aligned to agency retention requirements

SERVICE CAPABILITIES — TECHNOLOGY

- Application maintenance and support
- API integration and system connectivity
- Performance optimization and troubleshooting
- Legacy system transition assistance
- Ongoing operational technical support

DIFFERENTIATORS

- Structured delivery aligned to mission requirements
- Experience supporting enterprise-scale systems
- Direct leadership involvement and rapid response model
- Compliance-first approach to document handling and records governance
- Proprietary AI document intelligence engine built and deployed in-house

TECHNICAL CAPABILITY DEMONSTRATION

Pactura.ai — Aurum Equity designed, built, and hardened an AI-driven document intelligence engine that ingests unstructured records and produces clean, tagged, audit-ready output. It automates privilege and PHI screening, entity and fiscal-period extraction, and confidence-scored classification for legal, medical, and financial clients — a live, production system demonstrating the same documentation and compliance discipline we bring to federal delivery. See [pactura.ai](#) for details.

PAST PERFORMANCE

Commercial Systems Support

System support and technical improvements that enhanced performance and operational stability.

Private Sector Application Support

Application updates and integration support that improved system reliability and reduced workflow disruption.

Federal Records & Compliance Support

Records retention and document lifecycle support aligned to agency compliance requirements and disposition schedules.

AI Document Intelligence Deployment

Designed and deployed Pactura.ai, an AI-driven document classification and indexing engine delivering audit-ready, compliance-tagged records processing for legal, medical, and financial sector clients.
